

Find Your Bracelet Size

Printing Instructions

1. To obtain accurate measurements, please download this PDF to your computer and print this document at a page size of 100 percent.
2. Verify the page scale setting prior to printing by checking your printer dialog box. Under the page scaling option, select "none" or uncheck the box for page scaling.
3. Compare a ruler or U.S. Quarter with the guides on the right to ensure your printed document is the correct size. The U.S. Quarter should completely fill the circle shape.

To find your size in length (Great for charm, leather and multi-link bracelets)

Fold the tabs in and thread the far end of the ruler through to create a loop. Put on wrist and pull far end until you've reached desired fit. Your measurement will be indicated by the "Your Measurement" arrow. Depending on your desired bracelet type, we recommend adding the suggested length below to your wrist measurement for the most comfortable fit.

Charm Bracelets	Leather	Multi-Link
Add 1 inch	Add ½ inch	Add ½ inch

To find your size in diameter (Great for bangles, cuffs and hook-on bracelets)

Starting with the end of the folded paper ruler, place it on the pinky knuckle and measure the distance to the pointer knuckle to find the diameter of your wrist. Depending on your desired bracelet type, we recommend adding an additional suggested length below to your diameter for the most comfortable fit when slipping a bracelet on and off.

Bangles	Cuffs	Hook-on
Round up to the nearest size	Diam < 2½", order a small Diam ≥ 2½", order a medium	Diam < 2½", order a small Diam ≥ 2½", order a medium

Tips and Tricks

We recommend adding an additional ½-1 inch if a bracelet has a larger design for a more comfortable fit!
